

GUARANTEED CABIN CHARTER TOURS ON STANDARD CABIN YACHTS

- On a scheduled 'Blue Cruise', the yachts are different in size and range from 15 to 43 metres long. These yachts have different amounts of cabins from 2 to 16 depending on the length of the yacht. These yachts are southern Aegean constructed and are traditional Turkish wooden yachts known as gulets. For 'Luxury cabin charter programs' the gulets with air-condition are used.
- All cabins are for two people. Cabins generally have double beds. We cannot give any guarantee for twin or triple cabins (unless specified different in the program).
- All cabins have private WC / shower, portholes and a small wardrobe. There are enough blankets, towels and pillows for two people. The toilets can either be house type or a special marine toilet with a pump.
- Depending on the passenger capacity there is sufficient safety equipment on board including life jackets & lines, dingy boats and a life raft. These all meet international safety requirements.
- Depending on the size of the gulet at least 1 and at most 7 crew members are provided.
- All gulets have electric power of 12 V or 24 V. We do not give any guarantee for our generator to produce 220V electricity during sailing. However, when the gulets are anchored in marinas 220V electricity will be available on board.
- All our boats are fully insured. However, we advise you to have your own personal travel insurance.
- Depending on the passenger capacity, the gulets have suitably sized dining areas, shaded areas and an indoor saloon. The yachts also have a suitable amount of sun beds.
- Hot & cold water is available in cabins and the water tanks are big enough to supply guests' needs for a week.
- For the dirty water from shower / WC, there are reserve tanks with enough capacity and a drain system for both toilets and showers.
- Fuel tanks have the required capacity.
- The kitchens in the gulets are equipped to prepare and cook the food to be served on board.
- Fridges and cool boxes are sufficient to keep the drinks cold and the food fresh.
- All gulets store basic fishing lines, flippers and snorkels for the use of our guests.
